Profile

Full Name : Gopal Umeshbhai Gohil

Enthusiastic web developer with expertise in front-end and back-end technologies, creating dynamic and responsive websites. Skilled in HTML, CSS, JavaScript, React, and Node.js, with a focus on delivering user-friendly designs and optimized web performance.

Projects

bestcoding (Personal) [🔗](#)

bestcoding website often provide comprehensive learning resources,includeing tutorials,articles,Quiz and documention covering various programming languages,concepts and various topic to learn programing and Data analysis.BestCoding is a comprehensive web platform designed to teach students various programming languages through interactive lessons and hands-on coding exercises. The platform offers beginner to advanced level courses in languages such as Python, JavaScript, HTML/CSS, and more.

signaturespice(Group Project) [🔗](#)

Developed and designed a resturant website featuring an intuitive user interface with order management,dynamic menus.The Project is base on physical resturant website,where user can order the food item at his/her place or just reserve the table.The website is designed to showcase the restaurant's gourmet dishes, menus, and events, while also providing seamless functionality for reservations, online orders, and customer interactions.

Flipkart Clone(Personal) [🔗](#)

This project involves the development of a full-featured e-commerce platform that replicates the functionality and design of Flipkart. The platform allows users to browse, search, and purchase a wide range of products from different categories, similar to a real-world online shopping experience. The project was built to enhance my understanding of e-commerce systems and to demonstrate how web development can be used to create dynamic and scalable platforms.
